# **Top Five Execution Venue Annual Report**

## Introduction

---

This report has been issued to comply with the provisions pursuant to the Directive 2014/65/UE of the European Parliament and of the Council of 15 May 2014 (“MiFID II”) and the Regulation (EU) 600/2014 of the European Parliament and of the Council of 15 May (“MiFIR”), which establish the obligation of Banque de Patrimoines Privés. (Hereinafter “**BPP**” or the “**Investment firm**”) to publish on an annual basis the top five execution venues in terms of trading volumes where BPP executed client orders, in respect of each class of financial instrument referred to in Annex I attached to this report. The content of this report is regulated by the Commission delegated Regulation (UE) 2017/576 of 8 June 2016 supplementing Directive 2014/65/UE.

The aim of MiFID normative provisions for the elaboration of this report, is to provide investors a clear picture, so that they may be able to form an opinion as to the flow of client orders from BPP to execution venues. Therefore, in order to correctly analyze the information, so that a qualitative assessment can be made of the order flow of such venues, has been distinguished the information regarding retail clients and professional clients.

Where, for one or several classes of financial instruments, BPP only executes a very small number of orders, the information on the top five execution venues would not be very representative of orders execution arrangements. For this reason, BPP will clearly indicate the classes of financial instruments for which they execute a very small number of orders.

To prevent potentially market sensitive disclosures on the volume of business being conducted by the investment firm, the volume of execution and the number of executed orders included in this report is expressed as a percentage of BPP’s total execution volumes and total number of executed orders in that class of financial instrument, respectively, rather than as absolute values. The information contained in this report will be reviewed and updated on an annual basis, and will refer to order execution behavior for each class of financial instruments.

This document issued by BPP has been published on its website, in a machine-readable electronic format, available for downloading by the public.
